

SLOPING BOTTOM BAR

For Extreme MicroCoil Grille - 500K Cycles & Extreme 300 Series High Performance Grille

TRADITIONAL PITCH PLATE STYLE

NEW SLOPING BOTTOM BAR

Standard grilles that require the use of a sloping bottom bar will use a traditional sloping bottom bar that includes a pitch plate.

High Performance Grilles that require the use of a sloping bottom bar will feature this highly aesthetic compact solution.

CornellCookson's new low profile sloping bottom bar for the Extreme MicroCoil Grille and the Extreme 300 Series High Performance Grille allows for a continuous uniform grille versus the traditional, bulkier pitch plates giving your opening a highly aesthetic, finished look.

Available in ALUMINUM and STAINLESS STEEL for MicroCoil and ALUMINUM for 300 Series
